ALA India

BSB50820 Diploma of Project Management

PROJECT MANAGEMENT DEVELOPMENT

Lead Complex Projects. Engage Stakeholders. Deliver Results.

What is it?

An advanced project management development program designed to strengthen the capability to plan, manage and deliver projects across a range of organisational environments.

Participants develop practical capability across the full project lifecycle while strengthening their ability to integrate project activities, engage stakeholders, manage governance and deliver complex project outcomes.

Why?

As projects become more complex, successful delivery requires more than individual project management tools.

Project professionals need to integrate competing priorities, manage resources and risk, engage stakeholders, operate within governance requirements and maintain focus on organisational outcomes.

Who Is It For?

- Project Managers
- Experienced Project Coordinators
- Team Leaders and Managers Responsible for Projects
- Professionals Managing Increasingly Complex Projects
- Professionals Responsible for Multiple Project Activities or Workstreams
- Employees Progressing into Senior Project Responsibilities
- Professionals Seeking Formal Project Management Capability and Recognition

YOUR DEVELOPMENT PATHWAY

Plan → Integrate → Lead → Deliver → Review

WHAT WILL PARTICIPANTS DEVELOP?

Integrate Projects

Coordinate project activities, priorities and requirements across the project lifecycle.

Manage Scope, Time & Cost

Plan and control key project parameters to support successful delivery.

Lead Project Teams

Build collaboration, clarify responsibilities and support effective project performance.

Engage Stakeholders

Develop effective stakeholder relationships, communication and engagement.

Manage Risk & Governance

Identify and manage project risk while working within organisational governance requirements.

Deliver Complex Projects

Bring project disciplines together to manage complexity and achieve project outcomes.

ALA India

PROJECT MANAGEMENT DEVELOPMENT

HOW DOES IT WORK?

Digital Learning / Micro-Credentials
Flexible learning to progressively build advanced project management knowledge.

Facilitated Learning
Interactive development focused on practical project management application.

Workplace Application
Apply project management concepts and tools to real workplace projects.

Coaching & Mentoring
Individual guidance, feedback and support throughout the development journey.

Project Planning & Delivery
Develop and apply project plans and management approaches within the workplace.

Project Review
Evaluate project performance, outcomes and lessons learned.
